EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with S. Warren Hall on March 8, 2007.

The application has been amended as follows:

In claim 21, line 2, "said channels of" has been deleted; and line 2, "are in a plane" has been changed to --is a plate that extends--.

2. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or reasonably suggest, the equipment, as recited by instant claims 7-21, particularly including the flow distributor connected to the upstream end of the die tooling, the die tooling having the first internal elongate die passage of the ring shaped cross section to carry the molten plastic to the downstream molding region where the pipe is shaped, the die passage having the ring shaped mouth covered by the flow distributor, the flow distributor having the first plastic flow path having the inlet connected to the plastic feed and the at least two channels connected to the inlet with each channel having the outlet port feeding molten plastic to the ring shaped mouth of the first internal die passage with the outlet ports being distributed about the ring shaped mouth, the first adjustment means associated with the at least two channels to manually vary the distribution of molten plastic from the plastic supply through the outlet
